

# Baptist Student Ministry

## TWU

Andrea Eberly

Welcome to **Andrea Eberly!** She will be serving as our campus missionary this year on the Texas Woman's University campus. Andrea graduated from the University of North Texas in May of 2009 and she recently served as a summer missionary in Southeast Asia before starting on the TWU campus. Pray for Andrea as she meets new students and develops relationships with students.

## Texas Hope 2010 and Our Campuses

September 11-13 will be a very special weekend for students at TWU and UNT as we join with other Metroplex BSMs for a weekend focused on worship and service. We will be spending Saturday doing mission projects. Students will spend the weekend focused on praying, caring, and sharing Jesus with our community!

## UNT

Students officially moved in Sunday, August 23rd, and we've hit the ground running. We are in the midst of First Flight Week events and we're praying that this week provides opportunities to meet as many new students as possible. Many churches have already been involved in the activities of the week, and we'd love to have your church join us as well. Contact Stephanie if you'd like to find out more information.

We are planning our upcoming semester and we will be getting in touch with your church to see how our BSM can serve you. We are looking for service projects, so please let us know if there is a need we can meet.

Chris Newby

On August 20th, we welcomed a new staff member, **Chris Newby**. He will be serving as our BSM Intern for this school year. Chris is a recent UNT grad and served on our BSM leadership team as a student. We are very excited for him to join us and he looks forward to getting to know our DBA churches.

Please be praying for our leadership team as they start the semester and get their individual ministries going. God's doing some amazing things in the lives of our students, and we can't wait to see how God is going to use them this semester.

UNT BSM Leadership Team

## - From the Beloit College Mindset List

Students entering college for the first time this fall were born in 1991.
The Green Giant has always been Shrek, not the big guy picking vegetables.
They have never used a card catalog to find a book.
They have never had to "shake down" an oral thermometer.
There has always been a computer in the Oval Office.
Cable television systems have always offered telephone service and vice versa.
They have always been able to read books on an electronic screen.
Women have always outnumbered men in college.
There have always been flat screen televisions.
Everyone has always known what the evening news was before the Evening News came on.
